

A refreshingly  
different  
approach to  
Pest Control

---

**Pest Patrol excels in research, innovation and experimentation using cutting edge techniques and new materials.**

This approach, combined with our considerable industry experience, enables us to best serve and adapt to our clients' ever changing needs whilst still remaining extremely competitive.

**We work with your business**

If the last time you reviewed your pest prevention service was more than a year ago then you may not be receiving the best value for money or being informed of the latest products and procedures to protect your business. Is the cost of your current pest prevention worth what you're paying and more importantly are you aware of exactly what you're paying for?

**Multiple site premises**

If you have a multi site premises Pest Patrol have nationwide coverage with regional bases offering a linked network of technicians and operators. They're highly qualified, experienced professionals.

**How can we benefit you?**

We are passionate about providing your business with the most effective pest control solutions available in the UK today. We have fast response times and guaranteed service visits and if all this sounds too good to be true why not ask us for an audit of your existing service?

**Free service review**

If you already have a pest control service and want to review your supplier or you're thinking of engaging a pest control company, just call us. Our team of service auditors and surveyors will provide you with a comprehensive review of your present service and check you have received all your contracted visits. They'll inspect your present pest control system and advise on any improvements and savings so that you are up to date. Best of all it's FREE. Naturally, we hope to make an impression on you and you'll want to join us!
